WaterCop Pro Outdoor

Leak detection and automatic shut-off for outdoor shut-off locations.

The WaterCop® Pro Outdoor System features addressable sensors, a user interface with an LED screen, and flexible installation options. WaterCop® Pro Outdoor Systems are preferred for custom-built or expansive homes, multi-family, condominium or commercial use where combinations of hardwired, wireless, rope and pressure sensors communicate with an indoor Water Control Panel and hardwired actuator. WaterCop® Pro provides the most complete plumbing leak protection while offering the most flexible installation options and third party monitoring/security integration or an optional SmartConnect WiFi device with free WaterCop mobile app.

The proven leader in household leak protection:

is there when you're not.

WaterCop® Pro quickly detects and automatically stops common plumbing floods.
