

Commercial Buildings and Healthcare Facilities

The perfect solution to help protect a commercial building from significant water damage due to leaks or sudden plumbing failure.

The WaterCop[®] Pro Commercial is an automatic water shut-off system that is perfect for a facility left unattended at night and on weekends. It's the kind of protection that can help avoid shutdowns while a building is being dried out and repaired. There is also the reduced threat of costly insurance claims and employee health issues due to mold.

Features

- Provides peace-of-mind with 24/7 year-around protection
- Ideal for commercial office buildings, hospitals, clinics, dentist and doctor offices, beauty salons and restaurants
- Designed for spaces containing chill-water, water heaters, kitchenettes and bathrooms
- Place system at any water source to reduce the health threat of mold caused by hidden leaks
- Helps avoid costly building shut-downs due to water damage repairs
- Proven effective with hundreds of thousands of systems working flawlessly in the field
- On average, the system has a life expectancy of 20+ years
- Simple tie-in with any security or building automation system

The proven leader in household leak protection: **WaterCop[®]** is there when you're not.

The WaterCop® family of leak detection and Automatic Water Shut-Off Systems help protect residential and commercial buildings from significant damage due to leaking or sudden plumbing failure.

WaterCop Pro Commercial:

- Complete protection with hard wired or wireless sensor network
