Dual Valve Automatic Water Shut-Off System

A more efficient way to control water shut-offs in properties with two incoming water lines.

Perfect for condominiums, apartments, villas, attached homes, and commercial breakroom pantries using multiple line water feeds. Shut-off valves open/close simultaneously when notified by sensors, alarm panel or compatible SmartConnect WiFi device and app.

WaterCop® Classic Dual Valve System

An unlimited amount of wireless sensors communicate with shut-off valves installed indoors. Simple to install and use, this system provides an enhanced level of leak protection with a SmartConnect device and mobile app.

The proven leader in household leak protection:

is there when you're not.

Provides leak protection for homes with two incoming water lines.
